## Senior Infrastructure Engineer & Cloud Automation Architect

Technical infrastructure professional with 10+ years of experience architecting and automating enterprise-scale systems across cloud and on-premise environments. Specialized in building scalable, API-driven automation frameworks that span VMware, ServiceNow, Infoblox, and Ansible Automation Platform. Expert in Infrastructure as Code, having engineered a global provisioning framework managing 20,000+ virtual machines with 100% compliance. Proven track record of optimizing complex infrastructure for performance and cost efficiency, including \$400k in direct savings and the development of resilient, multi-tenant architectures in highly regulated environments.

## WORK EXPERIENCE

---

### M&T Bank

03/2019 - Present

#### Automation Engineer (formerly Systems Engineer)

- **Infrastructure as Code:** Engineered a global server provisioning framework that deployed and managed 20,000+ virtual machines; integrated Rubrik and VMware APIs to automate backup and compute placement, ensuring 100% RTO/RPO compliance at build time.
- **Multi-Cloud Architecture:** Developed an intelligent IP provisioning engine via Infoblox API integrations, eliminating 1,000+ annual engineer hours and resolving a multi-year infrastructure bottleneck.
- **CI/CD & Automation:** Designed an end-to-end 'Auto-Decommission' workflow with integrated ServiceNow Change Control APIs; automated the generation and closure of audit-compliant paperwork, reducing administrative overhead by 100% per retirement.
- **Scalable Systems Design:** Partnered with Database Architects to automate 'Always-On' MS SQL clusters across three geo-redundant data centers; pioneered an automated firewall rule request system to ensure seamless inter-cluster communication.
- **Cost Optimization:** Orchestrated the migration of 850 branch file servers within a strict 3-month window using custom PowerShell automation, avoiding \$400,000 in extended licensing fees.
- **Infrastructure Strategy:** Modernized legacy data center networking by collaborating with Network Architects to design high-capacity subnets, enabling fully automated DMZ provisioning for the first time in bank history.
- **Security & Compliance:** Authored Active Directory lifecycle scripts with built-in 'Read-Only' dry-run modes; implemented Least Privilege permissions and robust rollback protocols for stale object cleanup.

### OTG Management

07/2013 - 02/2019

#### Lead Network Engineer

- **Security Architecture:** Engineered a secure reverse proxy solution to protect sensitive internal infrastructure, enabling customer online ordering while mitigating external threat vectors.
- **Infrastructure Resilience:** Architected a highly redundant DNS solution that significantly reduced network outages and optimized global traffic performance.
- **Cloud Connectivity:** Established secure, encrypted VPN tunnels to bridge on-premise networks with cloud resources, ensuring seamless hybrid-cloud operations.

#### Network Engineer

- **Cybersecurity Governance:** Directed enterprise-wide vulnerability scanning and remediation efforts for internal and external systems to maintain a hardened security posture.
- **Network Administration:** Managed complex firewall rules and switch ACLs for a massive distributed network spanning 12 airports and 3 satellite offices.
- **Proactive Monitoring:** Developed service-aware alerting frameworks for business-critical systems, reducing mean time to resolution (MTTR) through proactive incident detection.
- **Mobile Management:** Successfully onboarded and managed 15,000 iPads via Meraki MDM, enabling centralized cloud-based control of enterprise mobile assets.

#### Systems Administrator

- **Disaster Recovery:** Spearheaded the deployment of Datto backup and disaster recovery appliances to ensure 100% business continuity for critical operations.
- **Operational Visibility:** Modernized infrastructure monitoring by designing custom Grafana dashboards to visualize real-time performance metrics.

## SKILLS

---

**Languages:** Python, PowerShell, Bash, YAML, Javascript, SQL, PHP

**Automation/Orchestration:** Ansible Automation Platform, CI/CD Pipelines, Gitlab, REST API, GraphQL, ServiceNow, Source Control, Grafana, Time-series Database, Disaster Recovery

**Infrastructure:** Infrastructure as Code, VMware vSphere, Azure, Nutanix AHV, Red Hat Linux, Active Directory, Windows

Server, Rubrik, Infoblox, Citrix Virtual Apps, NGINX Reverse Proxy, IIS, Artifactory, Group Policy, Server Lifecycle, SSL/TLS, Policy-driven storage tiering, RAID, Datto  
**Networking:** Firewall Rules, VPN, DNS, Load Balancing, F5, High Availability, BGP, VRRP, Meraki, Arista, Uptime Monitoring, Intrusion Detection, Vulnerability Scanning

## EDUCATION

---

### Bachelor Of Science in Computer Information Systems

SUNY Fredonia -- 12/2012

## CERTIFICATIONS

---

**Certified Meraki Network Operator** - Meraki

## VOLUNTEERING & LEADERSHIP

---

**Habitat For Humanity** 07/2025 - Present

Volunteer -- Buffalo

**Tift Nature Preserve** 01/2025 - Present

Volunteer -- Buffalo, NY

**716 Paws** 01/2022 - Present

Thermal drone pilot for search and rescue missions. -- Buffalo
