Senior Platform & DevEx Engineer | Cloud Infrastructure & Developer Experience

Enthusiastic technical professional with 10+ years of experience building developer platforms and automating cloud infrastructure at scale. Specialized in enabling engineering teams through self-service infrastructure, having architected a global provisioning framework managing 20,000+ virtual machines with GitOps-driven CI/CD pipelines. Expert in Infrastructure as Code (Terraform), observability stacks (Grafana), and integrating complex API-driven workflows across VMware, Azure, and Ansible Automation Platform to ensure 100% compliance. Proven track record of enhancing developer experience through mentorship, documentation, and platform engineering that balances autonomy with security and reliability.

WORK EXPERIENCE

M&T Bank

03/2019 - Present

Automation Engineer (formerly Systems Engineer)

- **Hybrid Cloud & GitOps:** Architected GitOps-driven CI/CD pipelines using Terraform to automate the deployment of virtual machines to Azure; implemented a pull-request-based workflow that standardized infrastructure changes through automated plan/apply cycles and remote state management.
- **Cloud Abstraction & Redesign:** Refactored legacy on-premise automation workflows to be fully cloud-agnostic, enabling seamless deployment to Azure; designed the logic to be transparent to end users, maintaining a consistent interface while abstracting the underlying infrastructure provider.
- **Technical Leadership:** Served as a primary mentor for the Technology Development Program (TDP), setting enterprise-wide standards for naming conventions, Git branching strategies, and unit testing for infrastructure code to ensure code quality and maintainability.
- **Architectural Scale:** Engineered a global server provisioning framework that deployed and managed 20,000+ virtual machines; integrated Rubrik and VMware APIs to automate backup and compute placement, ensuring 100% RTO/RPO compliance.
- **Network Security Automation:** Automated Check Point firewall rule generation and DMZ provisioning; integrated security policy updates into the server build cycle to ensure day-zero network isolation and a hardened security posture.
- **Infrastructure Resilience:** Engineered and maintained a highly resilient infrastructure architecture spanning three identical, geo-redundant data centers to ensure maximum uptime and disaster recovery readiness.

OTG Management

07/2013 - 02/2019

Lead Network Engineer

- **Performance Engineering:** Diagnosed and resolved a mission-critical server hang by identifying a NUMA architecture mismatch; realigned vCPU/Memory topology to eliminate cross-node latency and restore system stability under heavy load.
- **Enterprise Mobility:** Orchestrated the management of 15,000 iPads via Meraki MDM, implementing automated security protocols including geo-fencing, remote-wipe triggers, and custom in-house application deployment.

Network Engineer

- **Cybersecurity Governance:** Directed enterprise-wide vulnerability scanning and remediation efforts for internal and external systems to maintain a hardened security posture.
- **Network Administration:** Managed complex firewall rules and switch ACLs for a massive distributed network spanning 12 airports and 3 satellite offices.

SKILLS

Languages: Python, YAML, Bash, PowerShell, SQL, Javascript, PHP

Automation/Orchestration: Terraform, CI/CD Pipelines, GitOps, Gitlab, Ansible Automation Platform, Grafana, REST API, GraphQL, ServiceNow, Version Control (Git), Unit Testing

Infrastructure: Infrastructure as Code (IaC), Azure Cloud Services, Hybrid-Cloud Architecture, Cloud Abstraction, VMware vSphere, Rubrik, Active Directory, Red Hat Linux, Nutanix AHV, Check Point Firewalls, NUMA Architecture & Tuning

Networking: High Availability, DNS, Load Balancing, VPN, F5, BGP, Intrusion Detection, Meraki MDM

EDUCATION

Bachelor Of Science in Computer Information Systems

12/2012

SUNY Fredonia

CERTIFICATIONS

Certified Meraki Network Operator

Meraki

VOLUNTEERING & LEADERSHIP

716 Paws

Thermal drone pilot for search and rescue missions.

01/2022 - Present
