

David Kreuter

108 West Cherbourg Dr, Cheektowaga, NY | +1 716-444-9433 | davidckreuter@gmail.com

Senior Infrastructure Automation Engineer | Linux & Windows | CI/CD & IaC Specialist

Enthusiastic technical professional with 10+ years of experience managing enterprise Linux and Windows systems. Specialized in Infrastructure as Code and automation, having architected a global provisioning framework managing 20,000+ virtual machines using Terraform, Ansible, and CI/CD pipelines. Expert in integrating complex API-driven workflows across VMware vSphere, ServiceNow, Infoblox, and Rubrik to ensure 100% audit compliance. Proven track record of high-stakes problem-solving, including \$400k in direct cost savings and the engineering of first-of-their-kind automated DMZ and high-availability solutions across geo-redundant datacenters.

WORK EXPERIENCE

M&T Bank

03/2019 - Present

Automation Engineer (formerly Systems Engineer)

- **DevOps & CI/CD:** Developed scalable CI/CD pipelines utilizing Terraform automation to standardize environment deployments and reduce configuration drift across the enterprise.
- **Architectural Scale:** Engineered a global server provisioning framework that deployed and managed 20,000+ virtual machines; integrated Rubrik and VMware vSphere APIs to automate backup and compute placement, ensuring 100% RTO/RPO compliance at build time.
- **Operational Efficiency:** Developed an intelligent IP provisioning engine via Infoblox API integrations, eliminating 1,000+ annual engineer hours and resolving a multi-year infrastructure bottleneck.
- **Governance & Compliance:** Designed an end-to-end 'Auto-Decommission' workflow with integrated ServiceNow Change Control APIs; automated the generation and closure of audit-compliant paperwork, reducing administrative overhead by 100% per retirement.
- **High-Availability Engineering:** Partnered with Database Architects to automate 'Always-On' MS SQL clusters across three geo-redundant data centers; pioneered an automated firewall rule request system to ensure seamless inter-cluster communication.
- **Infrastructure Resilience:** Engineered and maintained a highly resilient infrastructure architecture spanning three identical, geo-redundant datacenters to ensure maximum uptime and disaster recovery readiness.
- **Risk Mitigation:** Authored Active Directory lifecycle scripts with built-in 'Read-Only' dry-run modes; implemented Least Privilege permissions and robust rollback protocols for stale object cleanup.
- **Cost Optimization:** Orchestrated the migration of 850 branch file servers within a strict 3-month window using custom PowerShell automation, avoiding \$400,000 in extended licensing fees.
- **Infrastructure Strategy:** Modernized legacy data center networking by collaborating with Network Architects to design high-capacity subnets, enabling fully automated DMZ provisioning for the first time in bank history.

OTG Management

07/2013 - 02/2019

Lead Network Engineer

- **Security Architecture:** Engineered a secure reverse proxy solution to protect sensitive internal infrastructure, enabling customer online ordering while mitigating external threat vectors.
- **Infrastructure Resilience:** Architected a highly redundant DNS solution that significantly reduced network outages and optimized global traffic performance.
- **Cloud Connectivity:** Established secure, encrypted VPN tunnels to bridge on-premise networks with cloud resources, ensuring seamless hybrid-cloud operations.

Network Engineer

- **Cybersecurity Governance:** Directed enterprise-wide vulnerability scanning and remediation efforts for internal and external systems to maintain a hardened security posture.
- **Network Administration:** Managed complex firewall rules and switch ACLs for a massive distributed network spanning 12 airports and 3 satellite offices.
- **Proactive Monitoring:** Developed service-aware alerting frameworks for business-critical systems, reducing mean time to resolution (MTTR) through proactive incident detection.
- **Mobile Management:** Successfully onboarded and managed 15,000 iPads via Meraki MDM, enabling centralized cloud-based control of enterprise mobile assets.

Systems Administrator

- **Disaster Recovery:** Spearheaded the deployment of Datto backup and disaster recovery appliances to ensure 100% business continuity for critical operations.
- **Operational Visibility:** Modernized infrastructure monitoring by designing custom Grafana dashboards to visualize real-time performance metrics.

SKILLS

Languages: Python, Bash, PowerShell, YAML, SQL, Javascript, PHP

Automation/Orchestration: Ansible Automation Platform, Terraform, CI/CD Pipelines, Gitlab, REST API, GraphQL, ServiceNow, Source Control, Grafana, Time-series Database, Disaster Recovery

Infrastructure: VMware vSphere, Nutanix AHV, Azure, Red Hat Linux, Windows Server, Active Directory, Infrastructure as Code, Rubrik, Infoblox, Server Lifecycle, Artifactory, Citrix Virtual Apps, Group Policy, IIS, NGINX Reverse Proxy, Policy-driven storage tiering, RAID, SSL/TLS, Datto

Networking: Firewall Rules, DNS, VPN, Load Balancing, High Availability, F5, VRRP, BGP, Arista, Meraki, Intrusion Detection, Vulnerability Scanning, Uptime Monitoring

EDUCATION

Bachelor Of Science in Computer Information Systems

SUNY Fredonia -- 12/2012

CERTIFICATIONS

Certified Meraki Network Operator - Meraki

VOLUNTEERING & LEADERSHIP

Habitat For Humanity 07/2025 - Present

Volunteer -- Buffalo

Tift Nature Preserve 01/2025 - Present

Volunteer -- Buffalo, NY

716 Paws 01/2022 - Present

Thermal drone pilot for search and rescue missions. -- Buffalo
